- Wintergreen  
(Teaberry, Checkerberry)
- Yarrow (white or pink)

### Why can't I pick flowers?

- Flowers won't be pollinated and reproduce for next year.
- Flowers are used by other animals.
- Others never get to enjoy the beauty of the flower you picked.
- It is against park regulations.

### What can I do instead?

- Sketch or draw the flower.
- Take a picture of the flower.
- Write a poem about the flower.
- Make a craft replica of the flower.
- Plant similar flowers at home to remind you of your visit.

Thank you.
