

BAXTER STATE PARK
WINTER USE
December 1- March 31

Some tips to consider:
Snow conditions may prevent the use of sleds. Bring a large pack.
Chimney Pond campers-always bring snowshoes. Trails rarely broken out.
Going to west or south side of Park? Park at Abol Bridge.

Trips above treeline:
Microspikes are NOT crampons, and will limit your progress.
Above treeline you need an ice axe; you can't self-arrest with poles.
Consider bringing the following:
a beacon, probe, and shovel per person
a 120-200' rope for white out conditions
