BSP Research Committee

The Research Committee was formed in the mid-1980s after an increase in research requests in the Park from the late 1960s through 1985. These academically minded botanists, entomologists, state fish and wildlife ecologists, researchers, and professors convene annually to evaluate research requests and make recommendations to the BSP Authority and Director with the long-term best interest of the Park in mind.

Baxter State Park Investment Committee

The Investment Committee, comprised of highly competent investment/financial professionals, as well as the chair of the BSP Advisory, was developed from the Park's Financial Committee in the early 2000s and very ably guides investment policy and helps inform Park staff and the Authority of the management of the Investment Fund and the Percival Baxter Trust. BNY Wealth, formerly BNY Mellon, manages these assets that Boston Trust originally managed.
